# DETAILS MATTER

To survive the test of time, you better be tough. Like the structures of Ancient Rome, Creative Mines is the only brick masonry veneer using pozzolan - a natural additive found in icons like the Colosseum for unrivaled durability.

Nature is unpredictable and Creative Mines excels in all seasons. Our industry-leading freeze-thaw durability with 0% degradation, 3800 PSI compressive strength and superior resistance to moisture intrusion and unsightly efflorescence is unmatched.

Skilled artisans handcraft each brick with breathtaking color and texture combinations. By leveraging our proprietary cementitious mix design, we can effectively decrease CO<sub>2</sub> emissions by up to 80% per square foot when compared to clay brick.
